Peace of mind for your contacts

A mobile phone backup & restore system for your valuable contacts.

iPhoneBackup

With iPhoneBackup a lost, stolen or damaged mobile phone doesn't mean the loss of valuable contact information. iPhoneBackup easily saves your mobile phone contacts and then restores them giving you peace of mind for just pennies a day. Backup and restore your contacts at any time on your existing or new mobile phone.

- **Privately backs up and restores your valuable contacts.**
- **Easily restores contacts to existing or new mobile phone.**
- **Saves and restores information such as:**
 - Name
 - Mobile, Home and Business Numbers
 - Email Address
- **Periodic backups occur automatically after initial backup.**

How to get peace of mind for your contacts.

1. From the mobile phone's application download area, download iPhoneBackup. iPhoneBackup will transfer "Over the Air" to your mobile phone.

(Some handsets may have iPhoneBackup pre-installed. Check to see if the application icon is already present in your application download area.)

2. Launch iPhoneBackup on your mobile phone. Create an account using your mobile phone number and a PIN.

3. Select "Backup Contacts" to save your contacts.

Select "Restore Contacts" at any time to restore saved contacts.

4. In the event of a lost, stolen or damaged phone, download iPhoneBackup on your new mobile phone (repeat Step 1.).

Login using your mobile phone number and PIN. Select "Restore Contacts" to 'copy' your contacts into your mobile phone.

5. Web Interface value added features - advantageous for mobile phones that support lesser number of contacts.

Login to the iPhoneBackup web interface using the same phone number and PIN:

- View and Search your contacts more conveniently on web
- View details of each contact
- Select contacts and download to mobile phone
- Remove unimportant contacts from mobile phone
